Results

- The complex process of skin healing begins immediately
- Inflammation-Pro is cooling, soothing and naturally emollient

The Formulation

Antioxidant and anti-inflammatory botanicals containing flavonoids and other natural compounds
 Natural omega oils to increase body's anti-inflammatory capabilities
 Botanical promotion of normal local levels of cAMP for healthy cell development
 Dead Sea salt delivers active minerals and trace elements. Patients from all over the world with skin disorders go to the Dead Sea for successful treatment in the intensely salt-rich water
 Antimicrobial ingredients inhibit bacteria, fungi and viruses
 Homeopathic ingredients support deep healing

Key Ingredients

Natural Research products are **pure**; ingredients are the cleanest possible. Our herbs are **organic** and are from **sustainable** sources. There are **no parabens** or synthetic preservatives. The products are fragrance and chemical free.

Professionals' Choice

Natural Research skin care products are created for professional use by naturopathic doctors. Our formulations follow the naturopathic principles: The Healing Power of Nature and First Do No Harm. The best results come from supporting these products with adjunct therapy in conjunction with naturopathic principles of treatment.

"Rowan's formulations are unique, chemical-free alternatives for care of the skin. I have been using these products for the past year and from pediatric to geriatric cases all have met with positive outcomes. I consider these products an essential component of my skin treatment strategies." Dr. Cameron McIntyre, BSc, RTR, ND, Vancouver, BC

Natural Research "products have demonstrated to me that they can heal nasty wounds, as well as helping to maintain the integrity and beauty of all skin. This efficacy is a function of the knowledgeable formulating, quality materials and the pure intention contained in each jar." Dr. Sally Ringdahl, ND, Vancouver, BC

Testing

Natural Research products are developed for and tested in our holistic dermatology clinic in Vancouver, BC. Observational Studies are conducted on all products on an ongoing basis. We base all our work on results.

Manufacturing

Our products are manufactured in a Health Canada licensed Certified Organic Processing facility.

Full quality control and quality assurance systems are applied at all levels.

Customers' Comments

"I would like to inform you of the incredible results I've had with your Inflammation-Pro Cream. Recently I had a very unusual breakout of eczema on my neck just under the chin. I am stunned by the incredible results – after three days the condition was completely healed and has not reoccurred." Michelle Donald, White Rock, BC

"I find the Rowan's cream for extreme is hugely helpful in keeping the itching and dryness of the psoriasis at bay, and my skin is less red, scaly, and much more like normal, moist skin when using the cream. Your Inflammation-Pro Pro is the best product I have found so far for my psoriasis condition." Sue Langer, Thunder Bay, Ontario

Natural Research "botanical cream restored my skin following a serious bicycle accident. In February 2004 I fell face first from my bicycle at speed. The physician in the ER did an amazing job of stitchery but was unable to count the number of stitches he used. I was devastated at the appearance of my face. I used the Inflammation-Pro Pro cream. I was astonished, as were the ER doctor and the Plastic Surgeon, at the speed and depth of the healing. A year and a half later there is no scarring and no evidence of the trauma to my face. I know that the cream from Natural Research provided the essential healing for my skin. I heartily endorse their products." Rita Ringdahl, Vancouver, BC

Inflammation-Pro is designed to assist in moderating intense symptoms and support the healing of severe skin conditions. For best results use **PROFESSIONAL** products in conjunction with internal therapies.
