Akita; It has developed a system that guarantees 100% natural and maximum quality using a unique technique.

It is made from fresh and organic rose and lavender flowers, one of the most valuable and beneficial essential oil-containing plants.

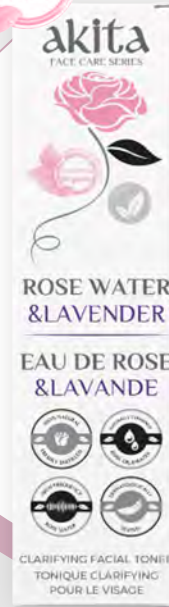

Fresh rose and lavender flowers are boiled in copper alembics, the steam found in any collection of rose and lavender flowers is condensed to obtain rose and lavender water drop by drop.

Usually rose and lavender water is a byproduct of the distillation of rose and lavender essential oil. Preserving the precious rose and lavender essential oil, Akita has produced Akita Organic Lavender Rose Water, which contains all the vitamins, minerals and essential fatty acids of the precious Rosa Damascena and Lavandula Angustifolia flower.

We produce it as special quality rose and lavender flower water that preserves its direct biodynamic energy, using a unique distillation technique that incorporates centuries-old traditions and modern technologies.

High quality Akita Lavender Rose Water helps to protect skin redness and skin tone unevenness. Akita Lavender Rose Water; it helps to relax and calm the soul.
