

**INGREDIENT:** Distilled Non-Deoiled Rosa Damascena Flower Water, Rubus Ellipticus Root Extract

**How to Use:** Spray enough to wet your entire skin in equal amounts. Let it dry on your skin or apply with the help of cotton.

Free of Parabens, Phthalates, Artificial Fragrance and Dyes, Mineral Oil, Animal Ingredients. The blend of Rose Water and Raspberry extract gives the skin a natural vitality.

**Akita;** has developed the system that leaves the unique inimitable components of the rose in the water with a unique technique and guarantees 100% natural and maximum quality.

It is made from fresh and organic rose flowers, the plant containing the most valuable and beneficial essential oil.

Fresh rose flowers are boiled in copper alembics, the steam containing the precious components of the rose flower is condensed to obtain rose water that has not been degraded drop by drop.

We produce it as special quality rose flower water that preserves the biodynamic energy of the plant, using a unique distillation technique that incorporates centuries-old traditions and modern technologies. Usually rose water is a byproduct of the distillation of rose essential oil.

By preserving the precious rose essential oil, Akita has produced Akita Raspberry Rose Water, which contains all the vitamins, minerals, essential fatty acids of the precious Rosa Damascena flower and raspberry extract, which is a storehouse of vitamins C, E, and A.

Akita Raspberry Rose Water is a product that helps protect the skin from the harmful effects of the sun, soothe and moisturize it. The mixture of high antioxidant raspberry extract and specially produced rose water protects the skin against all harmful substances and helps prevent possible skin problems that may arise from harmful substances.

MOISTURIZING
