

Anti-inflammatory

FlavoNAC™

Boosts lung health by removing accumulated toxins and reducing lung inflammation.

If you are looking for a natural way to boost your lung health, reduce inflammation, and protect your body's cells from harm, look no further than FlavoNAC™.

FlavoNAC™ is an orthomolecular formula targeting free radicals affecting lung health by improving lung blood circulation, removing accumulated toxins, and reducing lung inflammation.

Anti-inflammatory Products

More and more scientific evidence points to inflammation as the common denominator of practically all diseases. Reducing or eliminating inflammation should be at the foundation of all treatments.

Provita's continuously evolving (non-steroidal) anti-inflammatories are curated from the highest quality sources, and is specially formulated to help the body fight inflammation from joints down to the cellular level.

FlavoNAC™

Boosts lung health by removing accumulated toxins and reducing lung inflammation.

Features

- *Alpinia galanga* (Greater Galangal) is an ayurvedic herb rich in phenolic compounds with antioxidant properties. The rhizomes are used to treat various conditions including rheumatism, colds, catarrh, whooping cough, ulcers, bad breath, throat infections, respiratory diseases, dyspepsia, and fever.
- **NAC** (N-Acetyl Cysteine) is an important antioxidant essential for reducing oxidative damage and mitochondrial dysregulation. NAC is also important for lung health affected by increased numbers of reactive oxygen species such as in the case of COPD.
- **Hesperidin** and **Quercetin** are antioxidant flavonoids, the former being important for lung health problems including respiratory diseases, while the latter is well known for its anti-inflammatory, antihypertensive, vasodilator effects, anti-obesity, anti-hypercholesterolemic and anti-atherosclerotic activities

Benefits

- Anti inflammatory and cellular protection
- Lung health and cardiovascular health
- REDOX signaling and mitochondria homeostasis
- Control of Reactive Oxygen Species (ROS)
- Reduced oxidative stress (OS)

Complementary Products

- Hesperite™
- Subtivor™
