

Anti-inflammatory

Tetra Curcumin C3™

Most studied anti-inflammatory curcuminoid on the market for its high absorption rate.

Tetrahydro curcuminoids have been medically recognized as being the most bio-active (hydrogenated) metabolites of curcumin from *Curcuma longa* (turmeric extract). Unlike others, it has a beige-white appearance - also popularly known as the "white curcumin".

Curcumin C3 Reduct® provided in our product is a patented extract with a verified purity of 98% and manufactured by Sabinsa Corporation, USA. Sabinsa holds multiple patents with clinical data that shows significant efficacy and bio-availability.

Anti-inflammatory Products

More and more scientific evidence points to inflammation as the common denominator of practically all diseases. Reducing or eliminating inflammation should be at the foundation of all treatments.

Provita's continuously evolving (non-steroidal) anti-inflammatories are curated from the highest quality sources, and is specially formulated to help the body fight inflammation from joints down to the cellular level.

Retail Series

Tetra Curcumin C3™

Most studied anti-inflammatory curcuminoid on the market for its high absorption rate.

Features

Standardized Curcumin is hardly absorbed in the intestines. C3 Reduct® provided in our product is a patented extract with a verified purity of 98% and manufactured by Sabinsa Corporation, USA. Sabinsa holds multiple patents with clinical data that shows significant efficacy and bio-availability.

- 100% vegan non-GMO formula
- A highly bio-available patented formula
- Requires lower doses but with a more concentrated and diversified effect
- Significantly superior bio-absorption and anti-inflammatory effect
- Potentiated by the association with BioPerine®

Benefits

- Anti-inflammatory activity superior to standard curcumin
- Protective effects against diabetes and vascular dysfunction by relieving oxidative stress; anti-cancer activity superior to curcumin
- Anti-inflammatory activity at the brain level with positive effects against Alzheimer's and Parkinson's as well as against the oxidative stress induced by Glutamate in the cells of the hippocampus
- Protective effect in neuropathy by improving the conductivity of motor nerves

Complementary Products

- Arthro-FLX™ Forte
- Serra-Plus Forte
- Biopiperine™
