Between 12-17 years old take: 1 capsule 1 or 2 times per day.
If you are 18 years and older: 1 capsule 2 times per day.
Or otherwise as advised by a health practitioner.

SLOTH FACTS

Why sloth?

Sloth MD company is actively involved in rescuing and adopting sloths. Due to deforestation and wild animal trafficking sloths are endangered species. Sloth MD company adopts sloths. You can read their stories on the website.

Baby sloths learn what to eat by licking the lips of their mother.

Sloths are actually **Great Moms**: they have a lot of patience. They carry their babies for entire year in order to provide a proper development.

Being slow is far from **lazy**. It is an unbelievably successful **survival strategy!**

Sloths actually smell just like the jungle: fresh green, and a little bit earthy. Smelling like the rainforest is a great way to hide from predators with a keen sense of smell. Sloths are the masters of jungle camouflage!

Having fur that is covered in green algae and filled with hundreds of invertebrates definitely doesn't look clean. However, some species of fungi living in the fur of sloths may hold the key to **Curing Cancer** in humans!

OUR MISSION

We are 100% committed to helping you improve the quality of life. Our mission is to provide safe, effective and solution focused products for patients' unique treatment plan.
