

POWERFUL SUPPORT FOR YOUR AGING MUSCULATURE (ORGAN AND SKELETAL)

ACTIVEINE™ IS AN ANTI-AGING COMBINATION OF ENFORCED AMINO-ACIDS CURATED TO SPECIFICALLY SUPPORT MUSCLE HEALTH.

As we age, our body loses its capacity to maintain proper protein synthesis function needed for maintaining healthy musculature. Healthy internal muscles (not visible) are specifically important for maintaining proper organ function such as heart, bowel movement etc. Skeletal muscles support the skeleton and are essential for maintaining our younger looking posture, body movement capacity and even the way we look.

PROVITA - A STORY OF LOVE AND HEALING -

Our founder, Dr. Lucian Delcea, started Provita out of necessity. His wife was ill. And when drugs failed her, he began his search for an alternative. Before Provita launched in 2005, he sifted through countless hours of research; counseling with some of the top European naturopaths to produce more progressive support for the body's functions. Dr. Delcea came to

understand the body's healing process; how it could naturally overcome disease. All it needed were triggers to properly recognize and absorb nutrients for self repair.

Provita is not just a natural health line - it's an understanding of the body's own mechanisms. Dr. Delcea's now healthy wife is testament to that.
