## A UNIQUE ANTIOXIDANT

### NOT ALL ANTIOXIDANTS ARE CREATED EQUAL. SO WHAT SETS ELLAGIC ACID APART?

Ellagic acid is a polyphenol found in large amounts in pomegranate pulp and seeds. Its antioxidant power is most active in the liver where it can help with detoxification by binding to ingested toxins and helping to neutralize them.

It was recently found that the gut bacteria metabolizes ellagic acid resulting in the production of bioactive urolithins, metabolites that can greatly benefit overall health.

### DID YOU KNOW?

---

Pomegranate - which means apple with many seeds - is classified as a **superfruit** and belongs to the berry family. Originating from the Middle East, larger fruits can hold more than 1,000 seeds - that's a lot!

### PROVITA - A STORY OF LOVE AND HEALING -

Our founder, Dr. Lucian Delcea, started Provita out of necessity. His wife was ill. And when drugs failed her, he began his search for an alternative. Before Provita launched in 2005, he sifted through countless hours of research; counseling with some of the top European naturopaths to produce more progressive support for the body's functions. Dr. Delcea came to understand the body's healing process; how it could naturally overcome disease. All it needed were triggers to properly recognize and absorb nutrients for self repair.

Provita is not just a natural health line - it's an understanding of the body's own mechanisms. Dr. Delcea's now healthy wife is testament to that.
