NEW!

PUT ON A
BRAVE FACE!

PUT ON A BRAVE FACE!

Brave Face products are made in Canada, designed and sourced with a blend of innovation, environmental stewardship, and social responsibility. They pride themselves in their ability to conceptualize and produce products that positively reflect the ideals of their company.

They're focused on more than just contemporary design, they're focused on designing for the future to ensure we have one.

NEW PACKAGING!

Printed on Stonepaper®. No trees, water or hazardous chemicals were used in production. Comes in various designs.

CARE INSTRUCTIONS:

1. Wash before use.
2. Between uses, hand-wash mask with antibacterial soap for 2-3 minutes and rinse with warm tap water.
3. Soak mask for at least 7-10 minutes in hot water with temperatures between 45 degrees Celsius to 60° Celsius. Tap water at the highest heat setting will do.
4. As an alternative, you can use a clothes steamer to steam the mask after each use for 7-10 minutes.
5. Squeeze excess water out and hang to dry.
6. Always wash mask after one day of use or prolonged contact with other people.
7. Wash masks on their own. Never wash with clothes (may be washed in a delicates/lingerie bag in a machine at high temperatures).
8. Added measure: wash hands often with warm water and anti-bacterial soap, and refrain from touching any area of your face.

SPECIAL NOTE:

This product is not a substitute for a medical mask such as the N95. It should not be worn by healthcare professionals in a hospital setting or those treating patients who have become ill. Social distancing and regular hand washing still remain the most effective means of reducing the spread of a virus. Keep safe, keep healthy, wash your hands.
