**Immerse yourself in the aromatic
tranquility of the legendary
Great Bear Rainforest
without leaving home**

**Our oils are steam-distilled and sustainably harvested.
See labels for uses and precautions.**

Great Bear Rainforest® Essential Oils

Our premium line of wildcrafted, 100% therapeutic grade conifer Essential Oils are extracted from the pristine Great Bear Rainforest of the coastal regions of British Columbia, Canada. This area is home to one of the largest remaining tracts of unspoiled temperate rainforest left in the world, thickly forested with towering conifer trees of up to 1,000 years old.

OILS

Great Bear Rainforest® Essential Oils capture the breathtaking rainforest aromas of this celebrated, protected area. Our oils are steam-distilled and sustainably harvested. These practices are carefully governed under the strictest, most sustainable logging rules in North America. By gifting this piece of the legendary Great Bear Rainforest to yourself or someone you love, you support the growth and endurance of Indigenous languages and cultures on Canada's west coast.

The Great Bear Region

Under the Great Bear Rainforest Agreement, 85% of remaining old-growth coastal rainforest has been withdrawn from harvest and successfully protected.

About Us

Great Bear Rainforest Essential Oils is a 100% indigenous owned company. This social economic venture creates sustainable, long-term employment for individuals within our communities. Since our stewardship responsibilities extend to the well-being of our people, this initiative enables us to strike a crucial balance between economic prosperity and environmental protection. Assisted by the Coastal First Nations – Great Bear Initiative - a non-profit society and alliance of eight First Nations on British Columbia's North and Central Coast and Haida Gwaii.

**100% Indigenous Owned
