Stem Cell Serum

*Renew Youthful Appearance with Plant
Stem Cell Rejuvenation Support*

TARGET MARKET:

Consumers that are looking for a facial serum that moisturizes and rejuvenates the skin.

Directions:

After cleansing in the morning or evening, lightly dampen your face and apply to desired area. For external use only. Keep out of reach of children

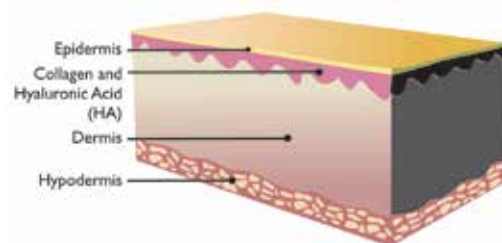

Ingredients:

Water, Citrus Aurantium Dulcis (Orange) Callus Cultura Extract, Vegetable Glycerin, Sodium Hyaluronate (Hyaluronic Acid), Glucose, Xanthan Gum, Citrus Grandis Peel (Grapefruit White) Oil, Glucose Oxidase, Lactoperoxidase.

Stem Cell Face Serum is infused with orange stem cells to help revive your complexion, renew youthful appearance and brings new life and energy to your skin.

Hyaluronic Acid (HA) is a natural and vital element of healthy, supple skin. HA has the unique ability to bind up to 1,000 times its weight in water, which makes it nature's greatest natural hydrator for your skin!

Citrustem is a natural, sustainable and environmentally responsible active ingredient obtained from the undifferentiated orange stem cells. This restorative ingredient works with the body's natural function of the skin for a more youthful appearance and supports your own skin's anti-aging effects. It naturally helps the development of skin elasticity.
