

NovoSweet-Glyvia™ Description:

Amino acetic acid complex carrier coupled to multiple plant-based natural glycosides. A white tablet that can be added to hot or cold beverages as one would use sucrose (sugar).

Recommended Use:

Source of (an) (non-essential) amino acid(s) involved in muscle protein synthesis. Helps to maintain normal blood glucose levels. Provides support for healthy glucose metabolism. Use as a zero carb, zero calorie sweetener as you would sucrose (table sugar).

Medicinal Ingredients			
Serving Size: 1 Tablet 445 mg			
Serving per container: 80			
Amount per serving /			
Calories	0g	Chromium	5mcg
Fat	0g	(as Chromium Polynicotinate)	
Carbohydrates	0g	Amino Acetic Acid	445mg
Glucides

Non Medicinal Ingredients: Magnesium Stearate, Microcrystalline Cellulose & Stevioside.

Recommended Dose:

For adults dissolve one to two tablets and stir well into hot or cold beverages just as sugar is used, 1-2 times daily. Provides sugar-like taste and mouthfeel.

SHORT OF CALORIES, WITH ALL THE SWEET!

Imagine the future of a new sugar-like experience available NOW...

GLYVIA™ is a natural, zero-carbohydrate dietary supplement that tastes amazing while delivering a great sugar-like taste and mouthfeel without the sugar calories, serum sugar spike, or any aftertaste commonly associated with stevia or artificial-type sweeteners. This patent-pending technology changes the way we taste and crave sweets.

Blood Sugar Control & Weight Management

Supplies Zero Calorie Sweetening with Sugar-like Experience

Helps Maintain Normal Blood Glucose

GLYVIA™

BLOOD SUGAR CONTROL & WEIGHT MANAGEMENT

NovoSweet BENEFITS

- ✓ Zero-carbohydrate
- ✓ Low - zero glycemic index
- ✓ Reduces the amount of natural glycoside to approximately only 20% of typical usage needed for sweetness
- ✓ Add to foods (baking) and beverages like tea, coffee or other
- ✓ Supports healthy serum blood sugar
- ✓ Adds sweetness, tastes clean like sugar

BLUE LINE PATH/NovoSweet

At approximately 15 minutes after consumption of a heaping teaspoon (6 grams) of GLYVIA™ powder in 300 MLS of water (creating the same sweetness level as table sugar) serum glucose levels remain at the low fasting level all the way through to and past the 75-minute test term. Red Line Path/Sucrose (Table Sugar): By the 15-minute mark after consumption of one heaping teaspoon (6 grams) of table sugar (sucrose) stirred into 300 MLS of water creating the same sweetness level as the above GLYVIA™ test solution serum glucose level begins to rise significantly and remained raised for close to 70 minutes.

Ways to use NovoSweet:

- Can be used with sugar to lower the sugar requirement per serving as well
- Convenient tabs for on-the-go use in beverages
- Great for enhancing the flavour of whatever it's added to

The NovoSweet experience is:

- Guilt-free and delicious
- Helps maintain normal blood glucose levels
- Diabetic-friendly
- Part of a carb-restricted diet
- Keto-friendly
- Part of a calorie-restricted diet
- Vegan-friendly
- Natural, organic, for healthy living
- Great for weight management and overall fitness
