# NaturPet Skin Aid Spray

Antiseptic first aid spray

Skin Aid Spray speeds wound healing while boosting immune function. This herbal blend disinfects and cleans wounds, preventing infection. For optimal first aid relief clean wound with a generous amount of Skin Aid Spray, allow to dry then apply Dr. Maggie Skin Care Ointment and bandage. Clean daily until healed.

## Active Ingredients

**Calendula** is one of the best herbs for the first aid treatment of burns, bites, scratches, and other wounds. Antimicrobial and antifungal effects help to fight infection.

**Echinacea** is used for its antibacterial, antiviral, and anti-inflammatory properties. This helps to reduce the swelling, redness, and pain associated with a wound, bite, or sting. Echinacea stimulates the production of T-cells, an important way for the body to defend itself from infection.

**Inactive Ingredients:** Purified Water, Alcohol
