

CANADIAN GROWN MUSHROOMS

WE GROW OUR MUSHROOMS IN PEMBERTON, BC
WE PRIDE OURSELVES ON BEING A MUSHROOM COMPANY (NOT A MARKETING COMPANY)

CAPSULES

POWDERS

GROW YOUR OWN KITS

100% Organically Grown Whole Medicinal Mushrooms

- For countless reasons, we exclusively offer whole mushrooms organically grown in North America.
- By steam treating our mushrooms, we deliver ready-to-use mushroom powders that are at their maximum level of bioavailability.
- We're proud to be the first and only medicinal mushroom supplement company committed to 100% plastic-free packaging!

Our mushrooms include all medicinal components of the mushroom life cycle including loads of fruiting bodies, mycelium, and mycelium-fermented substrate.

While there is an inherent cost to allowing the fruiting bodies to grow to maturity, as this can add weeks to the production cycle of our mushrooms, we feel this is a critical part to offering you the most comprehensive and potent product possible.

Did You Know?

- The UN reports that only 9 percent of the plastic waste ever generated has been recycled, and only 14 percent is now collected. Stay Wyld is the first and only medicinal mushroom company with 100% plastic-free packaging.
- Cargo ships release almost 3% of the world's CO2, and are a main source of nitrous oxide and black carbon (soot). Stay Wyld mushrooms are North American grown and not shipped aboard cargo ships.
- Mushrooms are listed as one of the top foods to avoid buying from China with some companies labeling their product "organic" just to increase sales.
