

TRACE NGB

**MINERAL RICH
CONCENTRATE**

**MINERAL BOOSTED
INTERMISSION SHOT**

MINERALS PRESENT IN TRACE NGB™

SODIUM
 POTASSIUM
 CALCIUM
 IRON
 MAGNESIUM
 MOLYBDENUM
 COPPER
 SILICON
 ZINC
 OXYGEN
 CARBON
 NITROGEN
 HYDROGEN
 BORON
 VANADIUM
 NICKEL
 BARIUM
 PHOSPHOROUS
 CHROMIUM
 MANGANESE
 ALUMINUM

Trace Mineral Rich Concentrate and Intermession Shots are natural health products infused with humic and fulvic acids. The mixture of these acids is what gives Trace products their distinct black colour.

The process for the extraction of humic substances is known as humification. This process produces amino acids through intermolecular forces. Such forces constitute the basis of the role of humic and fulvic acids as chelating agents. These chelating interactions pull metal cations into complexes, which, in this context, extracts a variety of minerals and electrolytes from the natural environment. Furthermore, Trace's plant based organic biomaterials are essential components of the carbon cycle and other physiological processes.

TRACE NGB™ Mineral Rich Concentrate (NPN#: 80052819) and TRACE NGB™ Intermession Shot (NPN#: 80052820) are two products that have acquired approval by Health Canada. The NPN# (Natural Health Product Numbers) are issued by the Natural Health Products Directorate (NHPD) of Health Canada. TRACE NGB™ is also recognized as BSCG (Banned Substances Control Group) Certified Drug Free®. The products are subjected to annual testing affiliated with BSCG, including safety and toxicity tests of heavy metals, pesticides, harmful solvents and microbiological agents. TRACE NGB™ satisfies quality assurance of dietary supplements, products and ingredients.

MINERAL RICH CONCENTRATE + MINERAL BOOSTED INTERMISSION SHOT

- Source of 20+ minerals. Absorption is enhanced by the addition of vitamin D
- Source of replenishing electrolyte ions and a natural energy source
- Alkaline range
- Aids in the maintenance of strong bones and teeth
- May reduce risk of osteoporosis
- Enhances tissue formation and muscle function
- 0 calories / 0 sugars / 0 carbs
- Assists the body to metabolize fats, carbs, and proteins
- Plant based humic and fulvic acids

TRACE MINERAL RICH CONCENTRATE (187 ML)
